

The Flexel-Touch Floor Sensing Thermostat

The new Flexel-Touch is designed to be the simplest to use electric floor heating control available.

The Flexel-Touch comes packed with innovative features to optimise your comfort and minimise running costs with the simplest touch screen interface.

A large full colour backlit touch screen provides simple programming by guiding you through program setup and adjustment - no need for any complicated instruction manual.

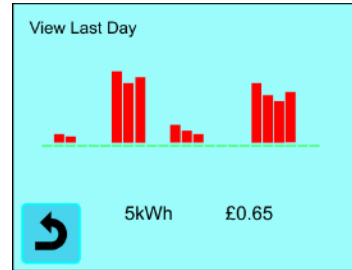

Features and Benefits

- Full colour 2.8" touch screen, backlit graphical display.
- Attractive styling available in a range of colours.

- Graphical energy monitor shows you how much energy you are using - allowing you to optimise your comfort and save on your energy costs.

- Easy upgrade option for existing thermostats. Multi floor probe compatibility feature enables most existing thermostats to be upgraded/replaced without changing the existing floor probe.
- Easy installation: choice of 4 factory preset program schedules to get your heating working quickly.
- Screen LOCK feature prevents unauthorised changes to the program schedule.

- Optional remote auxiliary air sensor to provide optimum control for bathrooms where electrical regulations prevent the thermostat being installed in the 'wet' environment.

- Multiple temperature settings can be set throughout the day to optimise comfort and save on energy bills.
- User configured operating mode - One thermostat for all room type applications: Air+ Floor, Floor only, Air only.
- User configured screen colours

- 'First Use' initial start-up program turns your floor heating on gradually preventing thermal shock to new (especially wood) floors.
