

ECOSUN TH

high output space heater

The ECOSUN TH is a no glare, medium wavelength, infrared heater. Constructed from powder coated black profile, its modern clean and elegant design allows it to be easily fitted in a multitude of domestic or commercial environments where heat is required without the glare.

Ideal for enclosed terraces, conservatories, reception areas, churches, cafes, restaurants, shops, zoos and many more.

Features

- Cost effective and efficient.
- Infrared heat can be directed onto seating areas and does not waste heat in a 360° circle like other heating options.
- Easy installation: electrical installation (230V) with mounting brackets.
- Clean modern design and the option of ceiling or wall mounting help the heater blend seamlessly into the surrounding environment.
- Zero light output is ideal for indoor applications where the light emitted from a conventional shortwave patio heater would be undesirable or intrusive.
- Tilttable brackets - with large field of effect.
- Available in 1000 Watt and 1500 Watt versions.

Technical

- Min. installation height is 1.8m above the floor (lower edge of panel)
- For ceiling installation there must be a min. gap of 30cm between the ceiling and the upper edge of the panel
- 2m heat resistant cable attached
- Protection: Cable gland to IP44
